

Board Chairperson's Report 2025

Julian Twohig

Gather 'round, dear friends, let's raise a cheer,
We made it through another school year!
No lockdowns, no masks, no virtual screens —
We actually met in person, not just in memes!

With Darryl guiding our leadership crew,
They lived our charisms and saw us all through.
They survived on strong coffee and Friday's relief,
When after-work drinks helped them process the grief!

Father Quynh blessed us with spiritual care,
Reminding us faith and community we share.

To teachers and staff, you deserve a medal of gold,
For dealing with students when stories were told,
For marking tests, for yard duty, for finding lost shoes,
For answering emails at hours you didn't choose!

The P&F team fundraised with style and flair,
Quiz Night was brilliant—the questions? Unfair!
They raised funds for our school with trivia and fun,
Though some of us realized how much history we'd forgotten (or none).

To our School Advisory Council, let's give them applause—
Petra, Mark, Sarah, Fred, and Jayde—warriors of noble cause!
They guided and governed through meetings galore,
And somehow stayed awake when we discussed the budget once more!

To parents who volunteered, who gave up their time,
Who helped with the canteen and read books that rhyme,
Who used the pick-up zone (not parked on the streets!),
You're the champions of this school—you can't be beat!

And now, let's acknowledge our feat of the night,
A world record attempt—can we get this done right?
The fastest community meeting in history's book,
We'll be done before Adam can give me that "please wrap up" look!

So here's to us all, to this wonderful year,
To no variants, no closures, to just being here!
May next year bring joy, and learning, and more—
Now let's break that record—I'm heading for the door!
